

## THE **IDACARE** PROFILE DATABASE

Because health care is important to all Idahoans, the new **IDACARE** database service is now available. This service gives patients easily accessible information on licensed health care professionals. Through the database, patients are now able to make more informed decisions concerning health care services.

Each **IDACARE** database profile includes educational background, work history, disclosure of disciplinary actions, criminal convictions, malpractice history, and other pertinent information. Profiles are available for all physicians, surgeons, osteopaths, physical therapists, dentists, podiatrists, chiropractors, optometrists, psychologists, physicians' assistants, and advanced practice professional nurses currently licensed in Idaho.

Individual provider profiles are **FREE** and available 24 hours a day, 7 days a week, at the **IDACARE** toll free number, 1-888-622-3855, or online at [www.idacare.org](http://www.idacare.org). The profiles are also available in written form during regular business hours at the office(s) of the provider and from the appropriate licensing agency.

For more information call **IDACARE** at 1-888-622-3855.

The information contained in the provider profile has been self-reported under oath by the provider. The regulatory boards shall not be liable for the correctness or completeness of the information contained in the provider profiles. The profile information has not been verified by the Boards of Chiropractic Physicians, Dentistry, Medicine, Nursing, Optometry, Podiatry, Psychology Examiners, or IDACARE.
